Research Interest

I have a broad interest in theoretical computer science, especially complexity theory.

Education

Imperial College London, Department of Computing — London, United Kingdom
MRes. in AI and Machine Learning — *Oct 2023 – Sept 2024 (Expected)*
Supervisor: Iddo Tzameret

- **Project:** Limitations on Learning Algorithms and Provability

University of Oxford, Mathematical Institute — Oxford, United Kingdom
M.Sc. in Mathematics and Foundations of Computer Science — *Oct 2022 – Sept 2023*
Disseration Supervisor: Jan Pich and Rahul Santhanam

- **Dissertation:** Connection between Rudich's and Razborov's Conjectures

Beijing University of Posts and Telecommunications, School Of Computer Science — Beijing, China
B.Eng. in Computer Science and Technology — *Sept 2018 – July 2022*
Rankings: 15/386; GPA: 91.05/100 or 3.77/4.0

Research Experience

Connection between Rudich's and Razborov's Conjectures — **Univeristy of Oxford**
Supervisor: Dr. Jan Pich and Prof. Rahul Santhanam — *May 2023 – Aug 2023*

- Study the standard assumptions for Rudich's conjecture and the techniques of stretching pseudorandom bits in the non-deterministic setting
- Understand the intuition of Rudich's conjecture and Razborov's conjecture
- Find the possible connection between Rudich's conjecture and Razborov's conjecture

Information-Theoretic Approximation of Large Markov Chains — **McMaster University**
Supervisor: Prof. George Karakostas — *Jun 2021 – Sept 2021*

- Studied, both theoretically and experimentally, methods of MC reduction, formulated them as optimization problems, and then developed provably good algorithms for solving the latter.
- Finished the problem formulation and modelling side and focused on the theoretical analysis of proposed solutions.

Recursive Teaching Dimension Versus VC Dimension Institute of Computing Technology, CAS
Supervisor: Prof. Xingwu Liu — *Spring 2020 – Fall 2020*

- Studied the quantitative relation between the recursive teaching dimension(RTD) and the well-known learning complexity measure VC dimension(VCD).
- Studied the Book Introductory Combinatorics by Richard A. Brualdi.

Visiting & Internship

Department of Computing Software, McMaster University — Hamilton, Canada
MITACS internship from 2021 Jun to 2021 Sept — *Adviser: Prof. George Karakostas*

Institute of Computing Technology, Chinese Academy of Sciences — Beijing, China
Reseaarch Intern from 2020 Spring to 2020 Fall — *Adviser: Prof. Xingwu Liu*

Selected Awards & Scholarships

2019 The Third Prize National Scholarship

2020 The Third Prize National Scholarship

Skills

Programming: C, C++, Python, MATLAB, Latex, Sagemath

Languages: Mandarin (Native), English (Fluent)
